VERSATILE/PORTABLE CARTRIDGE DUST COLLECTORS

V Series

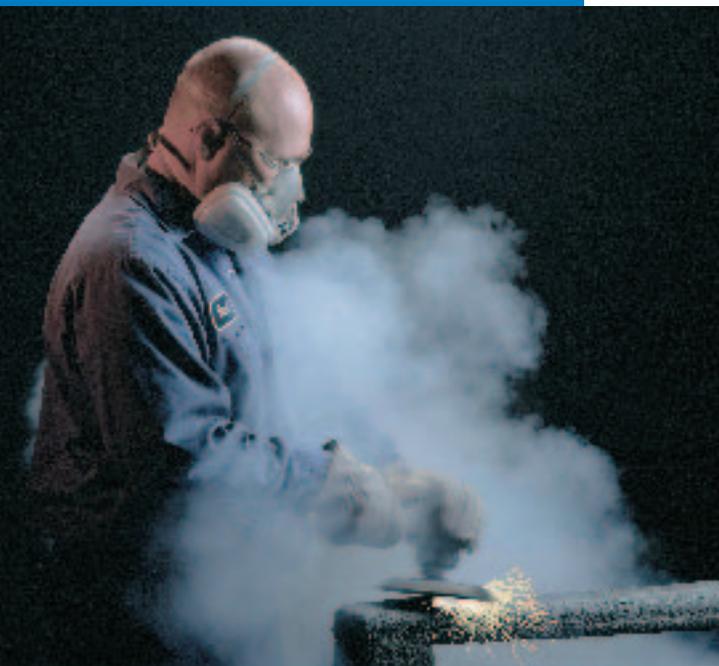

Your Most
VERSATILE and
ECONOMICAL
Solution
for CAPTURING
DUST and DRY
POLLUTANTS.

ALL-PURPOSE DUST COLLECTOR

If you're looking for a versatile, cost-effective alternative for eliminating fumes and dust in your factory, look no further than United Air Specialists' V Series. This innovative cartridge dust collection system is specifically designed to capture the smoke, dust and powders that result from a variety of manufacturing operations.

Model VP-1500 (Portable)

With a choice of two compact, low-profile sizes—750 or 1,500 CFM—the V Series truly is the most economical solution for cleaner factory air.

A WIDE RANGE OF APPLICATIONS

The versatile and compact V Series is ideal for applications including:

- Metalworking
- Packaging
- Buffing
- Screening
- Grinding
- Weighing
- Polishing
- Finishing
- Blending
- Sanding
- Filling
- Sawing
- Material Handling
- And more

Model VB-1500 (Bench)

Clean air. It's what we do.™

IMPROVES WORKER PRODUCTIVITY AND REDUCES FACILITY MAINTENANCE

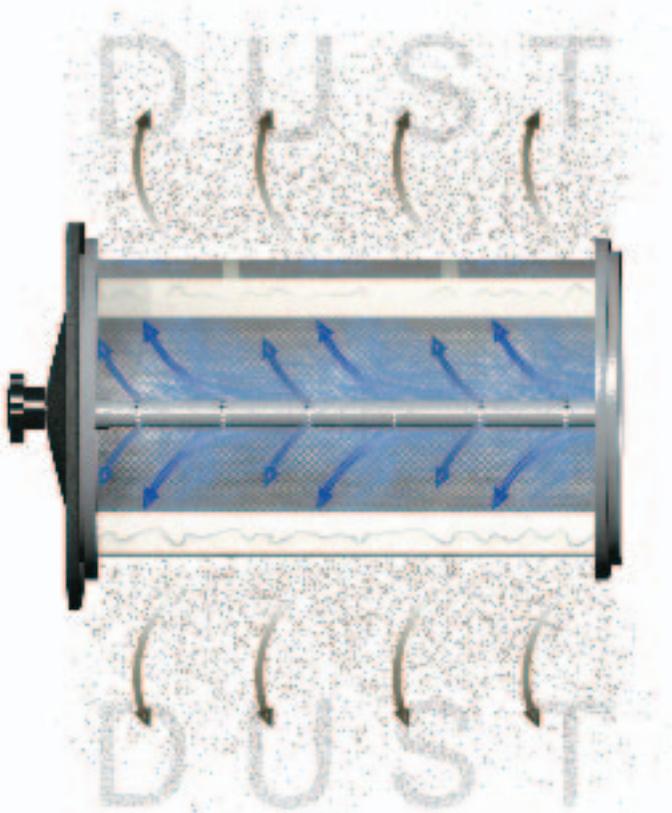

The V Series is available in three configurations: an integrated downdraft bench, a portable unit with swing arm and a self-contained system. Installation is simple, requiring an electrical connection and a compressed air connection for the in-place cleaning option.

Most importantly, because the V Series removes dangerous contaminants that can cause respiratory problems, it helps your factory comply with OSHA regulations and significantly reduces lost work time. Plus, it prevents dusts from migrating to areas with sensitive electrical and mechanical equipment—reducing facility maintenance, too.

Wide variety of application-specific media.

V Series PULSE BLAST

STANDARD FEATURES

- Available with a wide selection of high-efficiency filters including fire retardant, wide pleat, washable, Spun-Bond, PTFE and more.
- Auto-cleaning function automatically cleans filter after unit is shut off.
- Unique acoustic sound attenuation ensures quiet operation below 82 dBA.
- Assembled system is ready to use.
- Fast, tool-free filter change-out for easy inspection and maintenance.
- Powder coated finish on all components prevents fading and chalking.
- High-capacity dust drawer offers easy dust removal and disposal.
- Pressure gauge indicates when filters require replacement.

DOWNDRAFT BENCH

MODELS VB-750 AND VB-1500

The V Series downdraft bench is specifically designed for applications where workers need an integrated collection area and work surface that also draws contaminants away from the worker's breathing zone. Model VB is ideal for grinding and finishing operations of small parts and components.

KEY OPTIONS

- Scratch-resistant and metallic grill work surfaces
- 5" casters for increased mobility
- HEPA filters
- Carbon after-filters
- Stainless steel construction

Heavy-duty work surface supports up to 75 lb/sq ft.

Ergonomically designed for operator comfort.

Side wings and back panels can be easily removed to accommodate larger work pieces.

Even air distribution provides effective dust control over the entire work surface.

VB-1500

Dust drawer release for easy removal.

VB-750

Panels can be easily removed for large parts.

Clean air. It's what we do.™

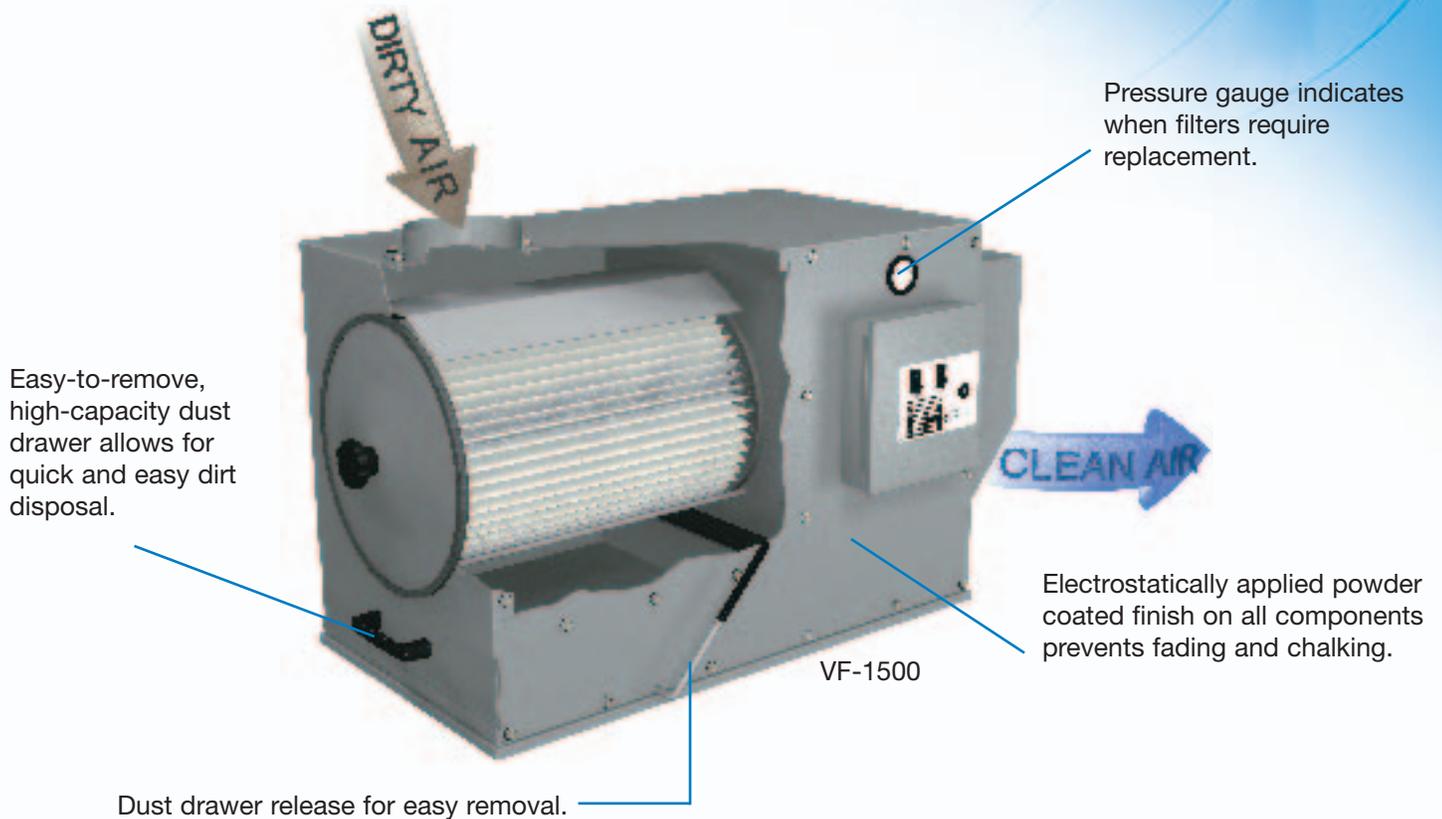

SELF-CONTAINED SYSTEM

MODELS VF-750 AND VF-1500

Serving as the airflow and filtration source for an entire system, this self-contained system is the perfect choice for economical and efficient dust collection. Ideal for ducted operation, the VF system's small cabinet makes it easy to position close to the dust source—saving valuable floor space.

KEY OPTIONS

- 5" casters for increased mobility
- HEPA filters
- Carbon after-filters
- Stainless steel construction

Easy-to-remove and dispose dust drawer.

VF-750

PORTABLE SYSTEM

MODELS VP-750 AND VP-1500

The V Series portable dust collector is ideal for applications where large pick-up hoods are impractical, where dust and smoke-producing machinery is used intermittently and where employees move from one work station to another. By positioning the swing arm and hood directly over the smoke or dust, Model VP removes harmful contaminants before they enter a worker's breathing zone.

KEY OPTIONS

- 7', 10' and 14' industrial swing arms
- 65-watt halogen light feature
- HEPA filters
- Carbon After-filters
- 5" casters for increased mobility
- Stainless steel construction

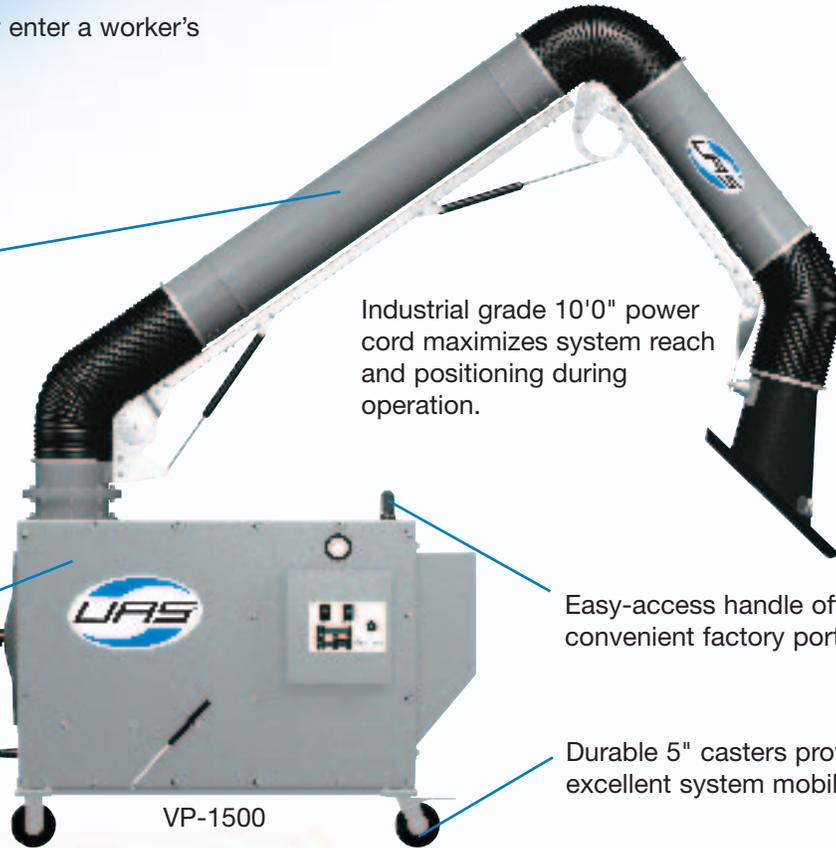

High-quality swing arm features unique hood design for superior fume collection.

Industrial grade 10'0" power cord maximizes system reach and positioning during operation.

Low-profile cabinet provides low center of gravity for easy maneuverability and arm positioning.

Easy-access handle offers convenient factory portability.

Durable 5" casters provide excellent system mobility.

VP-1500

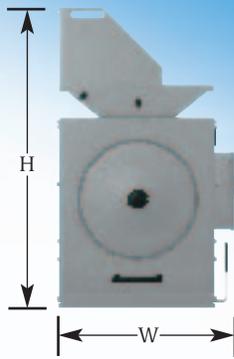

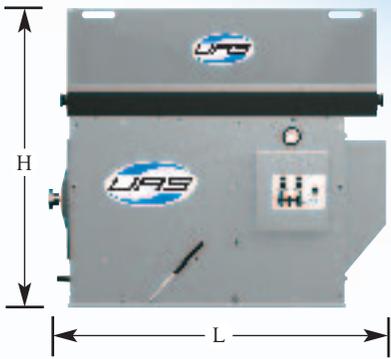

Fast, tool-free filter change-out.

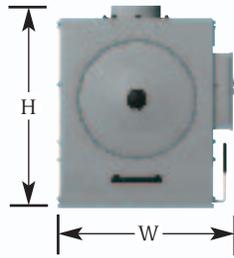

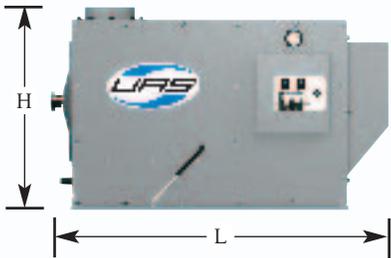

Clean air. It's what we do.™

MODEL DIMENSIONS

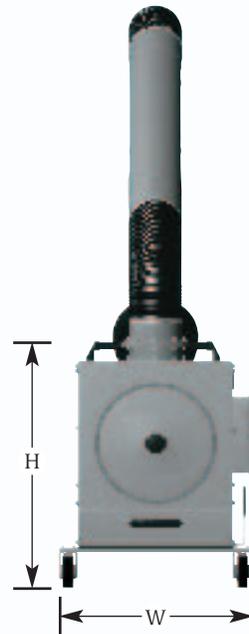

MODEL VB

Practical bench provides an integrated collection area and work surface.

MODEL VF

Small, ducted system for capturing dust at the source.

MODEL VP

Portable unit used in applications where hoods are impracticable.

WHY CHOOSE UNITED AIR SPECIALISTS?

A world-renowned reputation. For more than 35 years, we've been the industry leader in air quality technology — a proven track record that speaks for itself.

Commitment to quality products. Measuring our quality against documented expectations, we practice continuous improvement methods to anticipate challenges and implement successful solutions.

Unparalleled customer support. As a customer-driven solutions provider, we earn credibility and establish successful relationships by exceeding expectations for professional service and attitude.

Innovative technical leadership. Always, we keep technology at the forefront — ensuring continuous product advancements through ongoing investments in design and manufacturing.
